

ZIMBABWE ELECTRICITY TRANSMISSION & DISTRIBUTION COMPANY

FAULT REPORT No. 14050

Form E86 (a)

District Depot Code No.

Date

Line Construction

Name of Substation Supplying Feeder

Feeder Ref. & Section No.

Type.....

1	Voltage at Point of Fault	-	KV	14	FOR LIGHTING DAMAGE TRANSFORMERS ONLY								
2	Time of Interruption	-	HRS	Substation Name: _____ Voltage _____ Transformer KVA: _____ Lightning Arrester Position _____ Not Fitted: _____ Line Side of Isolator _____ Load Side of Isolator _____ D Fuses: _____ Rating (Amps) _____ Solid _____									
3	Time Reported	-	HRS										
4	Time Partially Restored	-	HRS										
5	Time Fully Restored	-	HRS										
6	Maximum Duration of Interruption	-	HRS										
7	EQUIPMENT OPERATED			15	DESCRIPTION OF FAULT AND ACTION TAKEN								
	Type: _____ Make: _____	Sections 8,9, 10, refer to Section 7 only 8 No. Of Reclosing Operations : Available _____ occurred _____ 9 Recloser Operation: Correct _____ Incorrect _____ N/A _____ 10 Sectionaliser Op.: Correct _____ Incorrect _____ N/A _____ 11 Phase Affected Red _____ Yellow _____ Blue _____ IF PROTECTION OPERATION INCORRECT GIVE PROTECTION DETAILS IN SECTIONS 12 AND 13											
	SW. No. _____ Voltage: _____												
	Rating: _____ Trip Setting: _____												
12	OTHER ISOLATING GEAR WHICH OPERATED			16	WEATHER CONDITIONS+								
	Type _____ Voltage: _____ SW. No. _____	16 WEATHER CONDITIONS+ Fine and Normal _____ Cloudy _____ Hot _____ Rain or Drizzle _____ Cold _____ Scattered Lightning _____ Steady Wind _____ Severe Lightning _____ High Wind _____ Other (Specify) _____											
	Prot Setting & CT Ratio: _____												
13	OTHER ISOLATING GEAR WHICH FAILED TO OPERATE												
	Type: _____ Voltage: _____ SW. No. _____												
	Prot Setting & CT Ratio: _____												
17	SCHEDULE OF DAMAGED EQUIPMENT												
	Qty	Make	Type of Equip.	Serial No.	Size Amp.	Voltage	Details of Damage						
18	TYPE OF LINE ON WHICH FAULT OCCURRED								20	MOMENTARY OR SUSTAINED INTERRUPTION			
	330kV	010	22/11kV U.R.	016	20 MOMENTARY OR SUSTAINED INTERRUPTION Momentary _____ 301 _____ Sustained _____ 302 _____ 21 DAMAGED MATERIAL (Insert Number or X as indicated) No. Of Wood Poles _____ 311 _____ Recloser & Sect (x) _____ 318 _____ No. Of Arresters _____ 312 _____ Disconnects (x) _____ 319 _____ No. Of T Formers _____ 313 _____ Cable Box/Joints (x) _____ 320 _____ Conductor (x) _____ 314 _____ U/Ground Cable (x) _____ 321 _____ Earthwire (x) _____ 315 _____ Meters (x) _____ 322 _____ Insulator (x) _____ 316 _____ Cts & VT (x) _____ 323 _____ Swgr OCB'S (x) _____ 317 _____ Other Equipment (x) _____ 324 _____								
	132 kV	011	11kv Screened	017									
	88kV	012	11kV Underground	018									
	66kV	013	LV Overhead	019									
	33kV Screened	014	LV Underground	020									
	33 Kv U.R.	015	Service/ Meter	021									
19	CAUSE OF FAULT								22	TYPE OF SUBSTATION AFFECTED			
	Lighting	201	Birds	208	22 TYPE OF SUBSTATION AFFECTED For Lightning Damaged Transformers Only Terminal Sub. _____ 325 _____ Underline Sub _____ 336 _____ 23 PROTECTION OPERATION Correct _____ 331 _____ Not Applicable _____ 333 _____ Incorrect _____ 332 _____ Duration up to Partial Restoration _____ No. Of Consumers Affected _____ Maximum Duration of Interruption _____ No of Consumers Affected _____								
	High Wind	202	Insects/Termite	209									
	High Temperature	203	Animals/Reptiles	210									
	Rain of Flood	204	Grass Fire	211									
	Atmosph. Pollution	205	Corrosion	212									
	Weathering & Deter	206	Dry Rot	213									
	Trees	207	Unknown	214									
	Mechanical Failure	261	Electrical Failure	262									
	Inadequate Precautions	271	Vandalism	274									
	Electrical Overload	272	Outside Agency	275									
	Switching Surge	273	Miscellaneous	276									
	ESC Power Station	281	Cons Installation	283									
	Purchased Power	282
