

ZETDC HRE IT 03/002 PROBLEM MANAGEMENT RISK REGISTER

	ACTIVITY	RISK BASED THINKING (ISO 9001:2015)		ENVIRONMENT (ISO 14001: 2015)		OCCUPATIONAL HEALTH AND SAFETY (ISO 45001:2018)	
		RISKS/ OPPORTUNITIES	CONTROLS	ASPECTS	IMPACTS	HAZARD	RISK
1	Service Desk / Incident Management / Event Management / Proactive Problem Management Report	- Wrong details - False alarm - System unavailability (Service Desk / Incident Management / Event Management / Proactive Problem Management) due to power cuts / computer hardware failure / I. T. network challenge	- Confirmation of report - Walk-in reporting - Use of backup power - Periodic maintenance and replacement of old hardware and network - Provision and use of alternative network links	-	-	- Too much light from computer screen - Repetitive tasks - Telephone noise - COVID 19 carrier (for walk-in clients and manual request forms) - Violent Clients	- Eye strain - Ergonomic injuries - Audiometric injuries - COVID 19 infections - Assault
2	Problem Detection	Taking too long to identify problem	- Technical expertise required (training) - Escalate problem	-	-	- Poor lighting - Dusty environments	- Eye strain / accidents - Pneumoconiosis

3	Problem Logging	- Wrong capture of details - System unavailability (Service Desk / Incident Management / Event Management / Proactive Problem Management) due to power cuts / computer hardware failure / I. T. network challenge	- Maximum concentration required - Use of backup power - Periodic maintenance and replacement of old hardware and network - Provision and use of alternative network links	Electricity Usage for Problem logging		- Too much light from computer screen - Repetitive tasks - Telephone noise	- Eye strain - Ergonomic injuries - Audiometric injuries
4	Problem Categorization	Wrong categorisation	Maximum concentration required	-	-	-	-
5	Problem Prioritization	Wrong prioritisation which can have an impact on the organisation's goals	- Maximum concentration required - Teamwork	-	-	-	-
6	Problem Investigation & Diagnosis	Wrong diagnosis of Problem	- Maximum concentration required - Technical expertise	-	-	Wrong handling of tools	Injuries / disablement / death

			required (training) - Teamwork - Escalation				
7	Implement Workaround	Taking too long to implement workaround	Technical expertise required (training)	-	-	-	-
8	Raise Known Error Record If Required	System unavailability (Service Desk / Incident Management / Event Management / Proactive Problem Management) due to power cuts / computer hardware failure / I. T. network challenge	- Use of backup power - Periodic maintenance and replacement of old hardware and network - Provision and use of alternative network links	Electricity usage for raising of the Known Error Record	-	Too much light from computer screen	- Eye strain - Ergonomic injuries
9	Problem Resolution	- Unavailability of transport for site visit. - Problem might remain in progress or on hold while Service has been restored.	- Use of remote support where possible - Follow ups	Electricity usage for testing of resolution	-	- Working at a height - Wrong lifting of equipment - Wrong handling of tools - Equipment malfunction	- Injuries / disablement / death - Injuries / disablement / death - Injuries / disablement / death - Injuries / disablement / death

		System unavailability (Service Desk / Incident Management / Event Management / Proactive Problem Management) due to power cuts / computer hardware failure / I. T. network challenge	- Use of backup power - Periodic maintenance and replacement of old hardware and network - Provision and use of alternative network links				
10	Problem Closure	- Closure of wrong problem - System unavailability (Service Desk / Incident Management / Event Management / Proactive Problem Management) due to power cuts / computer hardware failure / I. T. network challenge	- Thorough checking - Manual closure - Use of backup power - Periodic maintenance and replacement of old hardware and network - Provision and use of alternative network links	- Electricity usage - Usage of ink and paper	- Deforestation - Bulky paper filing	- Too much light from computer screen - Repetitive tasks	- Eye strain - Ergonomic injuries
