

ZETDC HRE IT 03/005 CHANGE MANAGEMENT RISK REGISTER

	ACTIVITY	RISK BASED THINKING (ISO 9001:2015)		ENVIRONMENT (ISO 14001: 2015)		OCCUPATIONAL HEALTH AND SAFETY (ISO 45001:2018)	
		RISKS/ OPPORTUNITIES	CONTROLS	ASPECTS	IMPACTS	HAZARD	RISK
1	Change Request Initiation	Wrong capturing of change details	- Verification and documentation of change - Maximum concentration required	- Electricity usage - Usage of ink and paper for manual documentation	- Deforestation - Bulky paper filing	Too much light from computer screen	Eye strain
2	Review and Evaluate Request for Change	- System unavailability (due to power cuts / computer hardware failure / I. T. network challenge - Wrong verification due to human error	- Use of backup power and network links - Maximum concentration required	Electricity usage	-	- Too much light from computer screen - Repetitive tasks	- Eye strain - Ergonomic injuries
3	Assess, Evaluate and Review Change	System unavailability (due to power cuts / computer hardware failure / I. T. network challenge	- Use of backup power and network links - Maximum concentration required	Electricity usage	-	- Too much light from computer screen - Repetitive tasks	- Eye strain - Ergonomic injuries

		• Wrong assessment due to human error	• Maximum concentration required				
4	Build and Test Change	• Inadequate funding i.e. vendor software • Lack of skills to build and test the changes • Unauthorised changes	• Develop in house systems • Training of staff • Authorised documentation to be put in place • System Audits • Change is tested and accepted by the users ensuring the change functions as intended • Use of monitoring tools	• Electricity usage	-	• Too much light from computer screen • Repetitive tasks	• Eye strain • Ergonomic injuries
5	Coordinate Change Implementation	• Resistance to change • Lack of skills to implement the new features • Mixup in change versions • Updating of documentation (manuals) and procedures can be overlooked	• Change Management required • Training of staff • Version Control • Update documentation and procedures	-	-	-	-

		Deployment of change is not performed timely or interferes with other scheduled deployments					
6	Conduct Post Implementation Review and Close	- Resistance to change - Failed user acceptance	- Change management training required - Sync changes with requirements	-	-	-	-
