## 1. INTRODUCTION

- a) The Transport Management System oversees, facilitates and coordinates all transportation operations and related services within the ZESA Holdings Structures.
- b) The Transport Policy Document aims at establishing an integrated transportation system that will enable ZESA Holdings to realise its corporate objectives, through a systematic and coordinated internal transport service.
- c) The policy will ensure the establishment of a cost effective acquisition, utilisation and monitoring value chain of the company's motor vehicles.

## 2. PURPOSE OF THE TRANSPORT POLICY

The policy is designed to:

- a) Facilitate accountability over the use of company's assets
- b) Control and containment of the company's transportation costs
- c) Establishment of an internal control framework to safeguard the company's transportation resources
- d) Establish a transportation system that shall aid ZESA Holdings in realising its overall corporate objectives.

## 3. DEFINITIONS

**Company Vehicle-** Any motor driven vehicles owned by the company and registered in the name of the company. The Company refers to ZESA Holdings or any of its Subsidiary companies.

**Special Purpose Motor Vehicle** – Is any non-passenger vehicle owned (leased or acquired) by the Company and used in pursuit of the company's objectives

**Eligible or Authorised Staff Member** – any staff member of the Company authorised by senior management to operate or drive a company vehicle in furtherance of the company's business.

#### **4. APPLICATION OF THE POLICY**

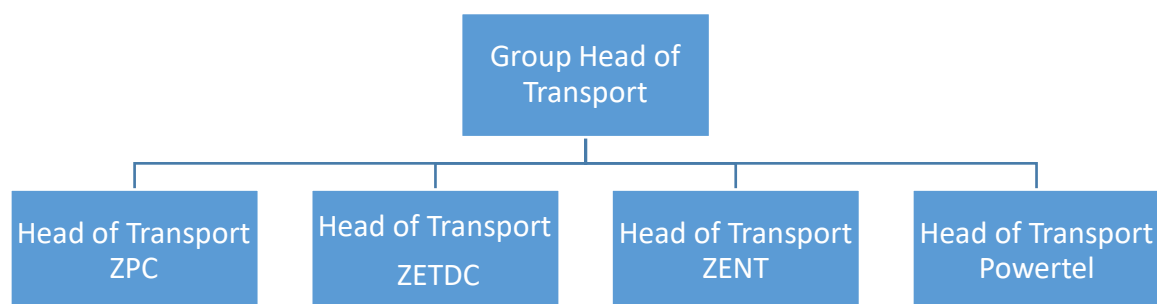

- a) The ZESA Holdings Transport Policy shall be applicable to operational vehicles for ZESA Holdings and all its current Subsidiaries namely:
  - Zimbabwe Power Company (Pvt) Ltd (ZPC)
  - Zimbabwe Electricity Transmission and Distribution Company (Pvt) Ltd (ZETDC)
  - ZESA Enterprises (Pvt) Ltd (ZENT)
  - PowerTel Communications (Pvt) Ltd
- b) Personally allocated vehicles shall be guided by a separate policy.

#### **5. MOTOR VEHICLE STANDARDS AND SPECIFICATIONS**

- a) Given the rapid changes in technologies, ZESA Holdings shall endeavour to keep track of technological advancement in order to ensure an efficient transportation system. However, to ensure consistency and maintenance of high standards across the Subsidiaries or Divisions, approved standards and specifications shall be used at any given time in the development or acquisitions of the company's motor vehicles.
- b) The Head of Transport Management shall establish Specification and Standardization committees to determine the standards and specifications for motor vehicles to be acquired by the company.
- c) The Specification and Standardization Committees shall be composed of staff with the requisite technical knowledge of the required motor vehicles and the nature of tasks to be performed.
- d) Synchronisation and standardisation shall be applied across the Subsidiaries or Divisions of ZESA Holdings. This entails application of similar motor vehicle specifications and standards for similar activities across the Divisions. The motor vehicle standards and specifications shall be subject to annual reviews by the Specification and Standardization committees.
- e) Where a Division or Department requires motor vehicles outside the standing standards and specifications, the Division or Department shall present full justification for consideration by the Specifications and Standardization committee and approved by the Head of Transport Management.

## 6. STRUCTURE OF THE TRANSPORT MANAGEMENT SYSTEM

- a) The Group Head of Transport, shall be overally in charge of the Group's transport policies and their implementation across the ZESA Group.
- The Subsidiary Companies Head of Transport shall be responsible to the Group Transport on policy and implementation issues.
- However, the Subsidiary Heads of Transport shall be accountable to the Subsidiary Heads on the day to day operations.
- b) The above Transport Management Structure shall apply up to the point when the re-bundling of the ZESA Group is implemented. Upon re-bundling, this structure shall be reviewed to suit the emerging structure.

## 7. DUTIES AND RESPONSIBILITIES

### a) Group Head of Transport Management

The Group Head of Transport Management is responsible for:

- i. Formulation, implementation, monitoring and evaluation of the approved company motor vehicle management policy
- ii. Planning, directing, coordinating and overseeing transport operations within the ZESA Group Subsidiaries or Departments.
- iii. Overall Management of transport staff across ZESA Holdings Group Subsidiaries or Departments.
- iv. Authorising vehicle allocations to staff members upon them satisfying the requirements for one to operate or drive a company vehicle
- v. Maintaining a Master Fleet Register for all Company owned vehicles

- vi. Providing support and the resources necessary to implement and maintain the policy
- vii. The provision of central operational systems that is; mechanical, operations, administration, procurement and other requirements necessary for the effective and efficient management of the transport system.
- viii. The provision of periodic reports to Group management on the operations of the transport systems.
- ix. Monitor State and Local Authority regulations and implement appropriate policy changes.
- x. Maintain appropriate budgets and records

## **b) Subsidiary Head of Transport**

- a) Reports to Group Head of Transport Management on transport policy and implementation issues.
- b) Report to Subsidiary Head/Director on day to day transport operations on transport policy implementation.
- c) Management of the transport function and implementation of policies and procedures within the subsidiary.
- d) Ensuring the provision of effective and efficient transport services within the subsidiary.
- e) Allocation of appropriate vehicles, equipment and supporting infrastructure.
- f) Taking appropriate action to manage deviant staff
- g) Ensuring that vehicles are properly secured when not in use
- h) Periodic, bi-annual inspection of company vehicles
- i) Arranging service, repairs and routine maintenance of subsidiary company vehicles.
- j) Distribution of updated versions of the Transport function policies and procedures to all stakeholders as necessary.
- k) Monitor the effectiveness of the Transport function

## **c) Drivers and other vehicle operators**

The drivers and other vehicle operators are responsible for:

- i. Operating company vehicles in accordance to this policy and subsidiary guidelines
- ii. Ensure all company motor vehicles have valid licenses and certifications

- iii. Maintaining assigned vehicles in accordance with established policy and statutory requirements

## **8. PURCHASE/ REPLACEMENT AND DISPOSAL OF MOTOR VEHICLES**

### **a) Purchase of Motor Vehicles**

- i. All vehicle acquisitions shall be done by the Procurement Department upon requisition by the Head of Transport Management in line with the Public Procurement and Disposal of Public Assets Act (Chapter 22:23)
- ii. The Head of the user department shall submit an approved requisition to the Head of Transport Management detailing the justification for the new motor vehicle requirements together with the specifications for the vehicles.
- iii. The vehicle requirements shall be incorporated into the Department or Division's Capital Budget after verification that the required vehicle specifications meet the approved standards and specifications.
- iv. All non-standard specifications proposed by user departments are to be reviewed by the Specifications and Standardization committee and approved by the Head of Transport Management.
- v. Budgeted acquisitions shall be incorporated into the annual procurement plan as required by Section 22 and 23 of the Public Procurement and Disposal of Public Assets Act (Chapter 22:23).

### **b) Disposal of Motor Vehicles**

- i. Obsolete operational motor vehicle disposals shall be in accordance with the Public Procurement and Disposal of Public Assets Act (Chap 22:23).

## **9. MAINTENANCE AND REPAIR OF COMPANY'S MOTOR VEHICLES**

- a) Motor vehicles shall be regularly maintained to ensure optimal performance and reduction of breakdowns or down time. Proper maintenance of motor vehicles and equipment is an integral aspect of managing operational costs and incidents arising from the operation of defective vehicles.
- b) Each Subsidiary, Division or Department's Transport Head shall have overall responsibility for the Department's fleet and oversees its maintenance and safeguarding.

### **c) Nature of Maintenance**

The vehicle maintenance shall take the form of two distinct programmes, namely preventive and routine maintenance

#### **i. General Preventative Maintenance**

The Driver of the vehicle shall be responsible for the General Preventive Maintenance of the vehicle which includes:

- Regular checking of oil, water, battery & tyre pressure optimal levels.
- Proper function of lights, vehicle horn and other accessories.
- Protecting the vehicle against weather induced wear and tear and general cleanliness.

#### **ii. Routine Maintenance - Performed basing on mileage and time.**

- The Departmental Transport Head shall be responsible for vehicle record keeping and coordination of routine maintenance works.
- The Departmental Transport Head shall develop an annual fleet maintenance schedule which shall be used to perform routine maintenance of vehicles. The structured vehicle maintenance plan for each vehicle must comply with the vehicle manufacturers' recommendation.
- Routine maintenance of the company vehicles shall be done in-house using internal resources or outsourced, to reputable suppliers of service.

#### **iii. In-house maintenance services**

- This shall be performed by qualified vehicle maintenance staff from the Transport servicing and maintenance division workshops of ZESA Holdings.
- In order to uphold high safety standards and adherence to vehicle manufacturers prescriptions, the Transport servicing, repairs and maintenance division workshops of ZESA Holdings shall attend to motor vehicle models and brands where they have been fully accredited.
- It shall be the responsibility of ZESA Holdings to fully capacitate the Transport servicing, repairs and maintenance division workshops with appropriate equipment and technologies in order to guarantee safety, reliability and efficiency of the company's motor vehicles.

**iv. In house motor vehicle maintenance process**

- The user department shall raise an internal requisition which should specify the nature of the service required.
- The internal requisition should be approved by the Departmental Transport Head for the Subsidiary or Division upon approval by the Section Head.
- Upon receipt of the approved requisition, the workshop shall raise a job card for each vehicle and record, all materials drawn, services and or defects rectified.

**v. Outsourcing of motor vehicle maintenance and service**

Outsourcing of the service shall be guided by the following:

- The Transport servicing and maintenance division workshop of ZESA Holdings is not accredited to perform the required service.
- There is no Transport servicing and maintenance division workshop of ZESA Holdings in the region or area.

In the event that the motor vehicle maintenance and service is to be outsourced, the procurement of the service shall comply to the Public Procurement and Disposal of Public Assets Act (Chapter 22:23)

**vi. Maintenance Documentation or records**

The Departmental Transport Head shall maintain individual vehicle files for the purpose of tracking vehicle history and assessment of its condition. The file shall contain amongst others the following documents:

- Vehicle maintenance plan or programme
- Copies of maintenance or service requests
- Copies of invoices paid for the service
- Copies of all detailed service reports i.e. Job cards.

**10. INSURANCE OF COMPANY MOTOR VEHICLES**

- a) The Head Risk Management in consultation with the Group Financial Controller and Head of Transport Management shall secure insurance cover for all Company vehicles.

- b) The company shall operate comprehensive insurance for all registered company vehicles.
- c) Procurement of Insurance Cover for the Company fleet shall comply with the Public Procurement and Disposal of Public Assets Act (Chapter 22:23).

## **11. MOTOR VEHICLE OPERATING PROCEDURES**

### **a) Company Owned Operational vehicles**

A company owned operational vehicle is defined as any company owned motor vehicle or plant, meant for the day to day operations or activities of the company, and for which no formal Personal Allocation letter has been issued by the Head of Transport Management.

- i. Head of Transport Management to maintain a Master Fleet Register for all Company owned vehicles.
- ii. All Company owned operational vehicles to be branded and allocated fleet numbers.
- iii. All operational vehicles to be fitted with appropriate tracking devices and completion of trip log sheets is mandatory.
- iv. Personal use of operational vehicles is prohibited.
- v. Staff may be permitted, subject to approval by Head Transport Management or a designated official to use Company vehicles for transportation of personal property provided that:
  - the vehicle would be making the journey in any event on Company business and
  - there is room on the vehicle for the property in question; and
  - there is no deviation from the route on which the vehicle would be travelling on business
  - the Company shall not be responsible for any loss and provided the carrying of such property does not invalidate the insurance of the vehicle in use or compromise the safety of the driver or vehicle.
- vi. In the case of isolated communities and workplaces where public transport is unavailable, staff may be provided with Company transport to and from work with prior approval of Head of Transport Management.
- vii. Bi-annual physical audits to be conducted for all company owned vehicles specifically in May and November of each year.

**b) Deployment and allocation of company owned motor vehicles for operations**

- i. The Departmental Transport Head of each Subsidiary or Division, shall have overall control over the deployment of vehicles across all the various operations and activities of the Department.
- ii. The Head of Department or Division shall have full custody, accountability and responsibility over all company motor vehicles deployed by the Head of Transport Management to the Department or Division.
- iii. Allocation and operational control for day to day operations or activities shall be the responsibility of the Department Transport Head of each Subsidiary or Division.

**c) Deployment and allocation of pool vehicles for Operational purposes (D3 and below staff)**

- (i) All Staff Graded D3 and below who require transport on a regular basis for carrying out their duties shall be given priority in utilising pool vehicles.
- (ii) Staff who are required on duty without notice and/or to attend to emergencies shall be allocated pool vehicles for the smooth running of their duties and be allowed to take the vehicle home outside working hours. Use of such vehicle shall be monitored and controlled.
- (iii) Allocation of pool vehicles to D3 personnel would be motivated by the nature of job subject to recommendations by local authority and approved by Head of the Company.

**d) Allocation of Pool Vehicles to Managers in Grades D4 and Above.**

All managers in grades D4 and above allocated with Personal Issue Vehicles (PIVs) who require the use of pool vehicles shall be required to follow the procedures and meet the conditions outlined below prior to such allocation of the pool vehicle.

- i. That the manager shall apply to their immediate supervisor for the authorization of the request for pool vehicle allocation.
- ii. That the request for the pool vehicle must include such details as follows;
  - *The full name of the manager making the request.*
  - *Their EC Number and Department*

- *A brief description of the purpose for which the vehicle would be used and the period under which that vehicle shall be loaned to the manager.*
  - *The full name and designation of the superior authorizing the allocation, dated and signed.*
- iii. Upon receipt of the request, the office responsible for issuing the pool vehicle shall issue the manager with the vehicle subject to the following.
- *That the application for the issuance of the pool vehicle is duly approved, signed and dated by the superior.*
  - *Subject to availability of a pool vehicle, the request shall be processed taking note of the mileage reading of the vehicle and the duration of the intended use.*
  - *That both the recipient and the issuing officials shall sign for receiving the vehicle and issuing the same respectively.*
  - *Upon returning the vehicle, the mileage reading shall be recorded and the date the vehicle is returned shall be recorded.*
  - *During the period of use of the pool vehicle by the manager, such pool vehicle shall be fuelled by the manager for all operations as reflected on the application form submitted. The vehicle shall not receive fuel from pool resources during the duration of the period which it would have been loaned to the manager concerned.*
- iv. That the pool vehicle shall not be used beyond the stipulated period stated on the vehicle request application form unless a further application is made and approved by the relevant authority.
- v. That a checklist of the vehicles accessories such as spare wheel, wheel spanners, keys etc. including dents on the vehicle, shall be done before the vehicle is duly certified received or returned to the issuing department.

#### **e) Company Owned Administrative Vehicles (Pool Vehicles)**

A company owned administrative vehicle is defined as any company owned vehicle meant for the day to day administrative activities of the company, and for which no formal Personal Allocation letter has been issued by the Head of Transport Management.

- i. The Departmental Transport Head of any Subsidiary or Division, shall have overall control on the deployment of vehicles across all the various administrative activities of the Department/ Division.
- ii. The Head of Department or Division shall have full custody, accountability and responsibility over all company motor vehicles deployed by the Head of Transport Management to the Department or Division.
- iii. Allocation and operational control for day to day administrative activities under the Department shall be the responsibility of the Departmental Transport Head of any Subsidiary or Division.
- iv. Refuelling to be logged in log books
- v. Copy of completed log book sheet to be submitted by the 28<sup>th</sup> of every month to Departmental Transport Head failure of which no refuelling until log sheet is submitted.

**f) Rental/Hired Vehicles**

- i. Vehicles may be rented for organisational business in certain circumstances. This includes out of town travel, replacement while a company vehicle is being serviced, transportation of business guests, special events and unexpected shortage of transportation services.
- ii. In cases where motor vehicle rental is necessary, the Head of Transport Management shall approve all rentals.
- iii. Procurement of the rental service shall comply with the Public Procurement and Disposal of Public Assets Act (Chapter 22:23)
- iv. While renting a vehicle, all requirements of the transport policies and procedures shall apply.
- v. Hire of taxis shall be approved by the immediate Supervisor or Local Senior official as and when it is appropriate.

**g) Transportation of Personal Property**

Staff may be permitted, subject to the approval of their Head of Department or Division to use company vehicles for transportation of personal property -

Provided That

- i. the vehicle would be making the journey in any event on company business; and
- ii. there is room on the vehicle for the property in question; and

- iii. there is no deviation from the route on which the vehicle would be travelling on business.

#### **h) Misuse of Company vehicles**

The following acts of commission or omission shall be regarded as misconduct in the use of company vehicles:

- i. Driving a company vehicle without authorisation.
- ii. Driving without a valid driver's licence for the class and type of vehicle driven.
- iii. Driving a company vehicle under the influence of alcohol/drugs or consuming alcohol in a company vehicle.
- iv. Going on unauthorised trips or deviating from such authorised trips and using lengthy uneconomic routes instead of the more direct shorter and safer ones.
- v. Permitting an unauthorised person, be it an employee or non-employee to drive a company vehicle.
- vi. Erasing fleet numbers or markings from a company vehicle.
- vii. Failing to do a pre-trip check on the condition of the vehicle resulting in such vehicle running without water or oil as an example.
- viii. Failing to take vehicle for routine servicing on the next service mileage where such excess is 500 kilometres and above.
- ix. Negligent driving of a company vehicle on an authorised trip.
- x. Causing the theft of a company vehicle as a result of leaving keys in the ignition.
- xi. Tampering with speedometers, tachometers, tracking devices and other gauges in a vehicle.
- xii. Failing to complete vehicle log book or entering false information therein.
- xiii. Engaging in unsafe practice, including failure to use and ensure that all passengers use all available safety equipment in the vehicle being operated. Safety equipment includes safety belts and/or shoulder harnesses.
- xiv. Falsification of accidents reports or other required documentation.
- xv. Failing to park a vehicle at the designated place after hours or on return from trip.
- xvi. Personal use or conveying unauthorised passengers/goods in company vehicles and/or for hire or reward.

## **12. DRIVER AUTHORISATION AND TRAINING**

- a) All newly licensed drivers or newly engaged employees who are required to drive company vehicles shall be re-tested by Transport Section personnel to the satisfaction of the Head of Transport Management or designated official on production of a driver's licence and Defensive Driving Certificate prior to being granted permission to drive a company vehicle. Permission to drive a company vehicle must not be given until Form S/73 is completed in every detail and the granting of such permission will be subject to the following conditions: -
- i. Newly licenced drivers will drive under the supervision of a more experienced driver for at least one month in cases where such a newly licensed driver drives for 10 times or more in any one calendar month in the execution of his duties.
  - ii. In cases where the driver drives less often (less than 10 times a month) the period of such a probation will be 3 months. The local senior official should be satisfied of the driving performance of the trainee before allowing him/her to drive on his/her own.
- b) Transport Section personnel shall verify drivers licence with the Central Vehicle Registry and Defensive Driving Certificate with Traffic Safety Council of Zimbabwe to ensure that the employee is qualified to operate the type of vehicle he/she will drive.
- c) An appropriate authorisation form (S/73) must be completed and duly signed by Head of Transport Management or designated official prior to the granting of permission to drive a company vehicle.
- d) All drivers will be monitored for regular compliance with the procedures, policies and rules in this transport function policy framework.
- e) Drivers identified as 'high risk' will be subject to corrective actions including, but not limited to:
- i. Defensive Driving Course.
  - ii. Driver may undergo a review session on individual incidents reports.
  - iii. Distracted driving training
  - iv. Substance and alcohol abuse counselling
  - v. Driver may have their driving privileges suspended or revoked.
- f) Documentation for the qualification of each driver shall be maintained. Examples of items to be kept in the driver's qualification and/or personal files include:
- i. Copy of the current driver's licence
  - ii. Copy of the driver's authorisation form (S/73)

- iii. Driver's incidents report log sheet
- iv. Copy of Defensive driving certificates and or other items specific to vehicle types
- v. Training records

### **13. ACCIDENTS REPORTING PROCEDURES**

- a) Any accident, however slight, e.g. a dent in the bumper, and whether or not anyone is injured or a third party involved, must be reported within 24 hours of their occurrence to the nearest police station and a report must be made to the Departmental Head of Transport and respective Head of Department or Division concerned, including Group Head of Transport.
- b) A vehicle Accident Report Form S.113 must be completed by the driver and thereafter by the Local Senior Official for all accidents and forwarded to the Risk Management Division together with a copy of the Insurance Claim Form in order to assist the Risk Management Section in collaboration with an expert Transport personnel e.g. Defensive Driving Course Instructor assess the full circumstances surrounding the accident and further claims processing.
- c) In the event of an accident with another vehicle (s), the following details must be obtained:
  - i. Name and address of Driver(s) of other vehicles(s)
  - ii. Name and address of Owner(s) of other vehicles(s)
  - iii. Registration number(s) of other vehicle(s)
  - iv. Description of vehicle(s)
  - v. Extent of damage to other vehicle(s)
  - vi. Name of insurance company (ies)
  - vii. Contact phone numbers
  - viii. Name and address of any witness
- d) Admission of responsibility or liability must not be made without prior authority from the insurers through the Risk Management Division.
- e) Circumstances of the accident must not be discussed with anyone other than authorised personnel
- f) Any and all damage(s) must be reported promptly to the Departmental Transport Head.

- g) There shall be an accident review committee that shall sit and review all accidents and come up with root causes and preventive measures. The Head of Department or Division shall nominate senior personnel who are conversant with transport issues to sit in that committee. Accidents reviews to be done within latest 30 working days.
- h) Under no circumstances must repairs be undertaken, nor must the vehicle be used, without authority from the Insurers.
- i) If it is necessary to rail or tow a vehicle for repairs, the rail age must be allocated “recoverable insurance”, as well as mileage performed by other company vehicles if it is necessary to tow the damaged one.
- j) Towing to be done with a rigid metal bar.

#### **14. TRANSPORT SAFETY**

It is part of the company culture to make sure employees are safe at the work place. To ensure this, the Heads of Transport Management and Human Resources shall;

- a) Develop training programs for the training of staff on transport safety issues
- b) Ensure that the transport safety guidelines are adhered to by all staff members during their day to day operations.
- c) Make sure risk assessments are conducted on a periodic basis and action undertaken where risks are highlighted
- d) Ensure that proper safety procedures are developed, adopted and used in the following areas;
  - i. Fuel storage/ Dump area
  - ii. Safe operation of vehicles within and outside the work place
  - iii. Security of vehicle assets possessions
  - iv. Accident and incident procedures for vehicles

#### **15. OFFENCES AND DISCIPLINARY ACTION**

- a) Management shall take appropriate disciplinary action against any worker who is found to have committed acts of misconduct in violation of standing rules and regulations.
- b) Discipline shall be entirely based on the company’s disciplinary procedures as laid down in the Code of Conduct.
